STONY PLAIN SUN.

VOLUME ELEVEN.

STONY PLAIN, ALBERTA, THURSDAY, JULY 30, 1931

Whole Number 569

NOTICE!

IN THE MATTER OF Certain alleged irregularities in the conduct of the business and affairs of the Municipal District of Inga No. 520, particularly set out in the Order in Council, dated Tuesday, the 21st day of July, 1931; and
In the Matter of the Public Inquiries Act, being Chapter 26 of the Revised Statutes of Alberta, 1922.

The Lieutenant Governor in Council, of the Province of Alberta, in pursuance of "The Public Inquiries Act," Chapter 26 of the Revised Statutes of Alberta, 1922, has appointed the Honourable Thomas Mitchell Marsh Tweedie, a Judge of the Supreme Court of Alberta, a Commissioner to conduct an Inquiry to ascertain as far as possible and to report thereon to the Lieutenant Governor in Council with respect to such alleged irregularities in the conduct of the business and affairs of the Municipal District of Inga No. 520, and particularly with respect to said District into the following matters:

- (a) Moneys paid to ratepayers and others in the years 1923 to 1931, inclusive, for road work and other municipal work, which moneys were not collected;
- (b) Work done during any of the said years on private property or for private individuals and charged to and paid for by the municipal district;
- (c) Compilation of fictitious time sheets, in whole or in part, the alteration of, or addition to, time sheets, and generally any irregularities or improprieties in connection with municipal time sheets during the years 1923 to 1931, inclusive;
- (d) Non-accounting to the municipal district of moneys collected on behalf of the district, in particular by councillors for work done where the cost thereof was to be divided between district and ratepayer;
- (e) The existence of bribery or corruption between councillors and ratepayers or others, or between councillors;
- (f) Irregularities in the matter of the performance of roadwork by servants of ratepayers employed by the latter on a monthly wage;
- (g) Irregularities in matter of benefits to members of council arising out of the performance of municipal work;
- (h) The misuse of the municipal office for debt collection purposes;
- (i) Generally the manner in which his duties of office have been performed by the former Secretary-Treasurer and particularly the manner in which the duties of the office of Secretary-Treasurer and of the incumbent or incumbents of such office have been performed during the years 1923 to 1931 both inclusive;
- (j) Irregularities in connection with the election of certain councillors on the 28th of February, 1931;
- (k) Generally such other irregularities or improprieties in the conduct of the business or affairs of said District or of any officer or employee thereof relative to his office or employment with the district which may be alleged or complained of, by an Elector of the District;

TAKE NOTICE:

The said Commissioner will proceed to hold the said Inquiry at the Town Hall, in the Town of Stony Plain, commencing on Monday the 10th day of August, 1931, at ten o'clock in the forenoon, and continuing from day to day until said Inquiry is concluded.

The undersigned will be in attendance at such Town Hall, in the said Town of Stony Plain, on

the 10th, 11th and 12th days of August, 1931, from ten o'clock in the forenoon to four o'clock in the afternoon.

AND during the continuance of the above hearing; and all persons having any knowledge or information directly or indirectly respecting the said alleged irregularities or respecting the subject matter of the said Inquiry, are requested to furnish him with any such information, and further to communicate to him the names and addresses of any person or persons likely to have any such knowledge or information, together with all other requisite particulars, and are further requested to attend at such Inquiry and, if necessary, to give evidence thereat.

DATED at Edmonton, Alberta, this 22nd day of July, A.D. 1931.

H. H. PARLEE,
Of Counsel for the Commissioner.

Suing an Insurance Co.

Statement of claim against the Wawanesa Mutual Ins. Co. by Henry Scheideinan, a farmer in Mewassin district, for the recovery of \$1600, was filed in the office of Supreme court on Thursday, states the Edmonton Journal. Plaintiff alleges that his house was insured with the defendant company against fire loss and that it burned down April 1, 1930. He further alleges that the amount of insurance \$1500 has not been paid to him.

Eckert-Kulak.

The marriage took place on Sunday last, July 26th, of Miss Lillian Eckert to Mr Reinhardt Kulak (son of Mr and Mrs Valentine Kulak Jr) The ceremony took place at St Matthew church (Missouri Synod) by Rev E Eberhardt. The bride was accompanied by the Misses Florence Kulak and Clara Kulak, as bridesmaids; while the Messrs Val J Kulak and Emil Kulak were groomsmen.

The young couple were the recipients of numerous presents, as tokens of the high esteem in which they are held by their friends.

The W.I.G.C. Convention.

At the convention in Edmonton last week of the Women's Institute Girls' Clubs, Mrs R E Wood was elected Provincial Supervisor of this organisation, in succession to Mrs Macgregor Smith. "Mrs Wood," the Journal says, "is known among the clubs as one of the early supporters of W. I. G. C. in Alberta, and has been supervisor at Stony Plain since a club was first organised there. She has attended six of the eleven conventions previously held, and so comes into the supervisorship closely in touch with the work of the organization."

Among the delegates present were: Mrs J W McCulla and the Misses McCulla; and Mrs Geo. Pugh, Jasper.

Railways' Week-end Fares.

Reduced week-end fares, good on all trains and between all stations in Canada, introduced this year by the railways in Canada as an experimental measure, will be continued in effect until Oct. 31st. Under this arrangement return tickets are issued at the rate of one and a quarter times the ordinary one way fare, the going portion good on all trains leaving after noon on Friday and returning on all trains leaving up to midnight on the following Monday.

The provision of these reduced fares has improved the facilities for week end travel in all parts of the Dominion and has proved a cheaper week end outing between city and country areas.

The reduced fares were first put in effect during May, June and July with a view of stimulating week end travel.

Don't Let Constipation Lead You Into Serious Illness

Serious rectal troubles, piles, paralysis, hemorrhoids, are frequently the result of using cheap cathartics.

ENO is pleasant, gentle, safe and sure.

A daily dash of ENO in a glass of water, every morning, tones up and sweetens the entire system.

ENO'S FRUIT SALT

Our National Parks.

One little item of national good which seems to have grown out of the prevailing and much discussed business depression is the increasing number of Canadians who are this year making visits to and holidaying in the National Parks of the Dominion. This very satisfactory development may have been caused by the financial inability of many people to indulge in more expensive trips, probably so, but it may also have resulted from increased publicity and a growing appreciation of these parks and the wonderful variety and beauty of scenic and other attractions which they present.

Canada, like all countries, has made some very good as well as some regrettable bad investments, but in no other department of national administration has more foresight been shown, or a better investment made, than in the setting aside in all Provinces of generous areas as national playgrounds, and leaving them, for the most part, in a state of undisturbed natural beauty so that future generations in the centuries to come may know what this country was like before it became the home of teeming millions with all the artificialities which invention and an ever advancing machine-age may bring.

As a result of this foresight, Canada today can boast of the largest and finest system of National Parks possessed by any country in the world. Embraced within their boundaries are great mountain peaks, large lakes, wonderful rivers, beautiful waterfalls, almost every kind of wild animal known to this northern half of the continent, fish, trees and wild flowers of every variety. They are, in a word, Nature's great storehouses of natural wealth and beauty.

More than this, each National Park is an animal and bird preserve and sanctuary, thus providing a guarantee against the extinction of these wild species in this country and safeguarding Canada from similar losses sustained in other lands. In fact, Canada has done even better than this. Not many years ago people declared that the buffalo, which once roamed our western prairies in countless thousands had become extinct. There were, however, a few held in captivity by private individuals in the United States. The Canadian Government, with foresight, seized the opportunity and purchased these animals, about 800 in all, twenty-three years ago, and brought them to Canada, placing them in the National Park at Watnwright, Alberta. Today there are 6,000 buffalo at Watnwright, 1,000 at Elk Island Park, Alberta, and about 13,000 at Wood Buffalo Park, Northwest Territories. All these herds are increasing.

Canadians thus have not only great national playgrounds but Nature's own zoological gardens. They constitute a national asset of great value today, which money could not buy, and which will increase rapidly in value with the passage of time. Full advantage of the National Parks should be taken by all citizens. They are easily accessible to most people, if not one park, then another one. In a year such as the present they offer the ideal holiday for people with but few dollars to spare. Take the children to them. Let them see the buffalo, the elk, the bears, in their natural habitat, and not merely by picture in school books. Let them, especially our prairie boys and girls, know the joy of roaming among the trees, and the keen delight of fishing.

Western winters are long, and sometimes excessively cold, when we must be cooped up in our houses. Therefore, let everybody get out of doors when and while they can, and revel in the beauties and the health-giving attributes of Nature. Adults will appreciate such a simple holiday, but the providing of it is a duty we owe to the children. Nature is the best doctor in the world, and we should go to her as often and for as long a visit as possible. And Nature can be seen at her best, and enjoyed to the utmost, in the National Parks of Canada—the great playgrounds which are the property of every Canadian citizen.

Light Cattle Wanted

Canada must produce more light-weight beef cattle to hold its market in Britain and to take care of home consumption contends Howard F. Raleigh, M.L.A., Lambton West, in a report prepared for the agricultural committee of the Ontario legislature, following an investigation of conditions surrounding the cattle-breeding industry.

If the way of the transgressor is so awfully hard, why is it so many people follow it?

Suffered Severe, Painful Cramps In Her Stomach

Those terrible cramps in the stomach that double you up in pain and make you break out in a cold perspiration, may be stopped by a few doses of Dr. Fowler's Extract of Wild Strawberry.

Mrs. Lloyd Jones, 204 Argyle St., Halifax, N.S., writes: "I have suffered greatly from severe and painful cramps in my stomach. I tried several remedies without result. One day a friend advised me to take Dr. Fowler's Extract of Wild Strawberry, and I bought a bottle and got instant relief."

Alberta Road Program

Work On Link With Trans-Canada Highway To Proceed

Construction work on the Alberta section of the proposed trans-Canada Highway will begin in the near future, it was indicated by the Provincial Government.

"Announcement of the road program was made following receipt of a wire from Senator Gideon Robertson, Federal Minister of Labor, stating not only that the Dominion Government will share with the Province on a 50-50 basis in the case of the trans-Canada Highway, but that the Province may confidently anticipate a Federal contribution on highways construction in drouth areas.

Three possible routes as Alberta links in the highway have been suggested, in answer to a request from Premier Bennett, as follows: Jasper, Edmonton and Lloydminster; Jasper, Edmonton and Watnwright; and Banff, Calgary and Medicine Hat. When a choice as between these is made by the Dominion authorities, lining up with the routes across the adjoining provinces, the way will be clear to begin actual operations.

Bounty On Wheat

Five Cents On Bushel Exported From Alberta and Saskatchewan

A resolution passed for the payment of five cents on every bushel of wheat exported from the Provinces of Alberta and Saskatchewan during the present year has been placed on the order paper of the House of Commons by Premier R. B. Bennett. This implements the announcement by Premier Bennett in his budget speech.

The resolution read as follows: "Resolved that it is expedient to bring in a measure to provide that the Governor in Council may authorize the payment out of the consolidated revenue fund of the sum of five cents on every bushel of wheat exported from the Province of Alberta and Saskatchewan of the crop of 1931, and to make provision for the determination of amounts payable thereunder, and for regulations to carry out the purpose of the act and prescribe penalties to be incurred for breach of the act or regulations."

The Oil Of The People.—Many oils have come and gone, but Dr. Thomas' Electric Oil continues to maintain its position and increase its sphere of usefulness each year. Its sterling qualities have brought it to the front and kept it there, and it can truly be called the oil of the people. Thousands have benefited by it and would use no other preparation.

Abandon Rural Fairs

Sixty-Nine Agricultural Fairs In Saskatchewan Will Be Cancelled For This Year

Due to poor conditions, 69 agricultural fairs have been abandoned in Saskatchewan. J. G. Rayner, secretary of the Saskatchewan Agricultural Societies Association and director of extension work at the Saskatchewan University, has announced.

Altogether, 75 small exhibitions will be held this year. Most of the fairs which will not be held are in southern Saskatchewan, although a few of the northern societies have decided to put off the fairs, due to lack of prize money.

Your Asthma, Too. The efficacy of Dr. J. D. Kellogg's Asthma Remedy is not something that is merely to be hoped for; it is to be expected. It seldom fails to bring relief, and in your own individual case it will do the same. So universal has been the success of this far-famed remedy that every one afflicted with this disease owes it to himself to try it.

Deaths By Violence

Increase Of Two Persons Per 100,000 Population Is Shown

An increase of two persons per 100,000 population in the number of deaths by violence is shown in a report issued by the Dominion Bureau of Statistics. The number of deaths by violence in Canada for 1930 was 7,498 as compared with 7,131 in 1929. Suicides numbered 1,007, a marked increase over 835 for the previous year, while homicides numbered 212 as against 182.

There were 6,249 accidental deaths, compared with 6,134 in 1929. Drownings numbered 1,037, deaths from traffic accidents 2,077 and automobile fatalities 1,289.

London women have a hatless craze.

Homeland Sends Greetings

London Papers Refer To British Columbia's Diamond Jubilee

"Hall British Columbia" is the heading of the London, England, Morning Post Leader in a recent issue referring to British Columbia's diamond jubilee as a province of Canada. The Post says the homeland sends affectionate and sincere good wishes to the province. It pays a tribute to the loyalty of British Columbia and recalls the courage and far-sighted vision of the pioneers of British Columbia commercial enterprise west of the Rockies and dwells on the development of the province into "one of the most progressive and prosperous communities in the Empire."

The Daily Express also congratulates British Columbia on its diamond jubilee, and says: "Perhaps other provinces of our great Dominion will forgive us if in this country we have special affections for the 60-year-old province beyond the Rockies owing to her flattering habit of remaining as English as possible."

Peace River Outlet

B.C. Government Fears Project May Be Delayed

The British Columbia Government is intimidated, views with concern the possibility that the fate of the Peace River outlet question and the future of the Pacific Great Eastern Railway may be delayed in its decision by reference to the proposed Dominion general transportation royal commission.

While favoring the appointment of such a commission for general purposes, the government does not wish these two questions to be subjected to delay. The provincial authorities, it is stated, will communicate with the Dominion Government to learn whether these matters would be referred to the proposed commission.

Toothache and neuralgia are instantly relieved with Douglas' Egyptian Liniment. A quick, sure remedy. Also recommended for burns, sprains, sores and inflammation.

Canada Praised By Sir Alexander Gibbs

For Wishing Efficient Management and Construction Of Harbours

Sir Alexander Gibbs, noted English port authority and engineer, who has been commissioned by Canada to conduct an investigation into the functioning of Canadian harbours, arrived at Quebec recently. Sir Alexander stated Canada was giving an example to other countries in wishing efficient management and construction of her harbours. His task was of the highest importance, he said, adding that he felt honored in having been chosen to conduct the inquiry.

Coast-to-Coast Telephone

Trans-Canada Telephone Line Will Be 4,268 Miles In Length

Direct telephone communication between Montreal and Winnipeg is now established, and marks the closing of another gap in a trans-Canada telephone system, which is expected to join Halifax on the Atlantic seaboard with Vancouver on the Pacific Coast, by the end of 1931. In all, eight telephone systems are co-operating in this coast-to-coast hook-up, which is designed to keep all purely Canadian telephone calls entirely within the boundaries of the Dominion.

The trans-Canada telephone line will be 4,268 miles in length, made up of 142 miles in Nova Scotia, 385 in New Brunswick, 1,952 in Quebec and Ontario, 242 in Manitoba, 455 in Saskatchewan, 418 in Alberta, and 569 in British Columbia. A total of 22 repeater stations will be necessary to boost-up the electrical impulses that carry the voice on its long journey across the continent.

Immediately preceding the opening of the Montreal-Winnipeg connection on July 4th, a third commercial line from Toronto to Winnipeg and one which provides direct communication, free from intermediate switching at any point en route, was brought into use. The first service between Toronto and Winnipeg was established in 1928, and two of the circuits now in operation are equipped with carrier current apparatus, permitting several simultaneous conversations on the same pair of circuit wires.

The eastern link of the system between Halifax and Montreal was completed in January, 1929, and the recent hook-up completes the line from Halifax to Winnipeg. Much work has been done in this connection in Western Canada, a three-channel carrier system already operating between Regina and Calgary, and the work laid out by the provincially-owned system of Manitoba, Saskatchewan, and Alberta, together with the British Columbia Telephone Company, provides for the opening of the whole line this year.

Complete In Itself, Mother Graves' Worm Exterminator does not require the assistance of any other medicine to make it effective. It does not fail to do its work.

The reason so many people miss the road to happiness is because when they come to it, it looks so much like a detour they take the better-looking side.

Cut Down Food Wastage

Heavy Distribution Of Fish Fry From Prairie Province Hatcheries To Stock Lakes And Streams

More than 479,000,000 fish eggs, fry, fingerlings, and yearling fish, and a few older fish, were distributed last year from the hatchery establishments operated by the Fish Culture Division of the Canadian Department of Fisheries.

There were Atlantic salmon, speckled trout, rainbow trout, brown trout, hybrid brown trout, a few albinos, brown trout, loach, seven trout, salmon trout, cut-throat, Kamloops trout, cut-throat and Kamloops crosses, cunananche, landlocked salmon, pickerel, whitefish, sockeye salmon, spring salmon, coho salmon, chum salmon, steelhead salmon or trout, and Kennerly's salmon.

By such distributions, which go on from year to year, the Fish Culture Division assists nature in maintaining and increasing the existing supplies of fish in various Canadian waters, stocks lakes and streams which are barren, and introduces different species of fish into areas to which they are not indigenous, thus making more fish swim where fewer swam before and aiding both the commercial fishermen and the anglers.

The largest distribution was from the hatcheries in the Prairie Provinces. From the hatchery establishments in Manitoba there was a whitefish distribution of about 130,000,000 and a pickerel distribution of over 107,000,000. In addition, there was a salmon trout distribution of upwards of 105,000. From the hatchery at Fort Qu'Appelle, Saskatchewan, nearly 15,610,000 eggs, etc., were sent out—whitefish, by far the greater part, some pickerel eggs, and some brown trout. The distribution from the Alberta hatcheries reached a total of more than 103,250,000.

Safety In Flying

Accidents Would Be Reduced If Proper Precautions Were Always Taken

Col. W. A. Bishop, V.C. Canada's most famous aviator in the Great War, was twitted the other day, when, as he was about to take off on a flight in Eastern Canada, he made a most careful preliminary inspection of the plane that was to bear him. He checked the wires, rigging, wings and tail parts and listened to the hum of the motor. To those who twitted him, he made a remark that deserves a good deal of attention. "I'm not fussy about being the world's smartest pilot. I just want to be the oldest one."

Here is an epigrammatic utterance deserving of the notice not only of aviators but of motorists and others who have anything to do with machinery. The accident list would be materially reduced if everyone took the precaution of satisfying themselves, before applying the power, that their machines were in first-class shape. Longevity has its attractions notwithstanding the considerable passion for speed and darning—Regina Leader-Post.

Magistrate (to woman involved in an unhappy matrimonial dispute): Did you and your husband quarrel on Friday night?

Wife: What! And the next day pay day? Certainly not!

"Mother, is it true that a camel can work for a week without drinking?"

"Yes. And your father can drink for a week without working!"—Moustique, Charlevoix.

W. N. U. 1900

May Make Shipments Of Cattle Monthly

Reservations Being Made With Council Of Western Beef Producers

Additional ocean accommodation recently made available to them will permit the Council of Western Beef Producers, with headquarters in Calgary, to ship creditable numbers of beef cattle to the British market in every month between now and January, 1923. Reservations have already been made by one rancher for space in the latter month, and many others are making their plans to forward their cattle under the auspices of the Council later this season.

Sixty head of light animals left Lethbridge recently for Glasgow, via Quebec, while 160 head of heavies went from Bowden, Lethbridge, Camrose, and Tofield areas for shipment overseas. These will about clear up the feed cattle controlled by the Council in this district, and subsequent shipments will be of grass-fed animals.

To Ensure Fair Profit

Feed Must Be Included In Price Asked For Lambs

An average spread of \$1.54 between the cost of feeder lambs and the price at which they are sold is necessary for profit, according to a table of production costs appearing in the current issue of the Economic Annalist, official organ of the agricultural economics branch of the Department of Agriculture. These figures were obtained from a close study of conditions reported by 16 representative feeders in southern Alberta. The two most efficient of this group of feeders kept operating costs down to 38 cents per head, while the two least efficient showed a spread of \$2.64 per head. For the average feeder to make a profit he must sell his lambs at not less than \$1.54 per head over their cost to him as feeders.

World's Largest Steer

Weights 3,300 Pounds and Measures Over 10 feet in Length

"Wonder" is the largest steer in the world. Lean, he weighs 3,300 pounds, and his owner, E. B. Huffman, believes that he can fatten him so that he will weigh 4,000 pounds. "Wonder" is seven years old and was born on the ranch of Ralph Clement, near Burwell, Neb. From the tip of his nose to the tip of his tail the steer measures 10 feet eight inches.

Building construction in France is showing a slight increase.

FORCED DOWN

Laura Ingalls (above) diminutive but widely-known airwoman, who was forced down by storms while on a proposed one-stop trans-continental flight from California to New York. Miss Ingalls is expected to hop off as soon as weather permits, on a solo hop to Europe.

Search Finally Rewarded

Eggs Of Harris Sparrow Found North Of Churchill

Discovery of the eggs of the Harris Sparrow, the last North American bird-whose eggs have remained unknown to science despite searches over more than a century, has been made by Dr. George Sutton, a Pittsburg ornithologist, who has returned from ice-covered wastes on the western shore of Hudson Bay.

Dr. Sutton's discovery came as the climax of a race with a group of scientists of the Canadian Ornithological Society, while both expeditions were camped less than a mile apart.

For nearly three weeks the groups raced to be the first to find the last link in the chain of more than 1,200 known birds of this continent.

The eggs, smaller than those of robins, pale green, with mottled brown marbling, will be presented to Carnegie Institute. They were found in a rhododendron-like bush near the ice, 40 miles north of Churchill, Man., on June 16.

The expedition spent two months in the Arctic, collecting birds, plants and insects. Its members, besides Messrs. Sutton and Sample, were Bert Lloyd, Saskatchewan ornithologist, and Olin S. Pettengill, photographer, of Bondonville College.

How He Understood It

A young lad of six years got to pondering about Biblical matters recently and came to his mother to ask her exactly why Christ was killed. She happened, however, to be busy at the moment; moreover, she didn't want to get him embroiled in philosophical affairs too early in life. "He was killed," she explained, because the people didn't understand Him," and thought she'd got away with the thing rather neatly—until a day or so later. Then she came upon him in the nursery, solemnly explaining to a playmate that Christ was killed because He couldn't speak English.

Alberta Society Of Artists Is Formed With Object Of Raising Standard Of Art In Province

Method Was Simple

Invention Of Dr. Babcock Revolutionized The Dairy Industry

Dr. S. M. Babcock, whose invention 41 years ago of a simple way of finding the amount of butterfat in milk revamped the whole dairy industry, is dead. He was 88 years of age but had been still working away on various research problems at his private laboratory at Madison, Wis., where he had been almost a recluse for many years.

Born and schooled in New York State he joined the staff of the University of Wisconsin in 1887 and the first announcement of his invention came three years later.

Its importance lay in the fact that it brought full value for the product of his herds to the farmer who kept high grade stock, whereas formerly he had received from the creamery no better price than had been given the seller of an equal quantity of milk of low content. It also protected the manufacturing end of the dairy interests in that it made adulteration or watering of milk by dishonest farmers easy of detection.

Dr. Babcock's method, like many another important discovery, was the embodiment of simplicity. Under it today a given amount of milk is sampled from the produce of a farm, poured into a graduated beaker or test tube, an equal amount of sulphuric acid is added, and within a few minutes the butter fat has come to the top with its amount indicated by the standard markings on the tube. Another benefit of this discovery was the improvement in dairy stocks which it made certain. It became easy for the farmer to determine whether or not given cows should be retained in the herd as a money-maker and mother of future income, or sent to the butcher.

Value Of The Newspaper

Use Of The Columns Of The Local Paper Best Aid To Business

The director of a well known mercantile establishment describes the local newspaper as "our best clerk." He explains that it sees more people, gets more of their individual time, works longer hours, and tells its story with more accuracy than any other clerk they can employ. These people are going into the homes of people, and are assured of their friendly attention. This is proved by the tremendous growth in importance of the press in the last few years, according to the director, who declares that today the local newspaper is the backbone of any constructive sales effort.

A machine that cuts wood into matches turns out 40,000 splints a minute.

Worried by crop deterioration and price depression the west has not forgotten art.

Recently a chair of music was established at the University of Saskatchewan and now Alberta has organized a society of artists, with headquarters at Calgary and branches at Edmonton and other points.

Announcement of the formation of the Alberta Society of Artists is made by Dr. W. G. Carpenter, director of the Institute of Technology and Art. No members have been elected as yet, and it is anticipated that only two or three will be named during the first year. Adjudication by eastern Canadian, British or United States experts has been promised for works by aspiring artists.

One of the chief activities of the society will be to organize and assist art clubs and sketch clubs in cities, towns and villages throughout Alberta. Members of the clubs will not necessarily be members or associate members, but the society will sponsor their exhibitions, help with raising prizes, and later organize scholarships for promising students.

It will bring loan exhibitions by Alberta for display not only in larger centres but in the smaller towns. It plans to establish an art gallery and to present exhibitions of amateur and professional work in competitions in art much after the manner followed by musical festival organizers in the realm of music.

"For many years educationists in Alberta have felt that the standards of art should be raised in this province," states Dr. Carpenter. "At the institute we felt that the development of art should be raised in this way by an outstanding and youthful citizen—a man whose personality and interpretation could be used as a foundation on which to create an entirely new school as distinctive in character as the Italian, Flemish, English or Dutch schools. We believe that we have such a personality in A. C. Leighton, R.B.A."

Mr. Leighton has been named temporary president of the new Alberta society.

Conference On Grain Production

Important Meeting To Be Held In Conjunction With World's Grain Show

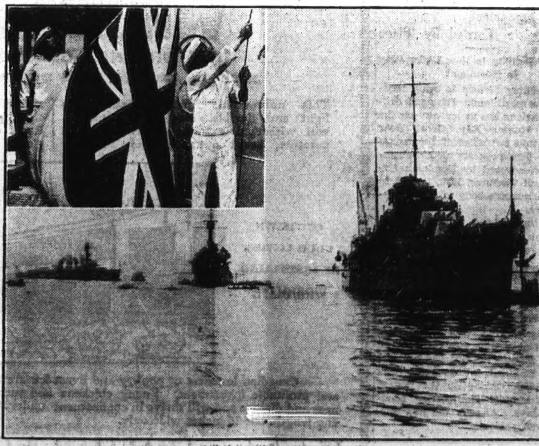

The conference on grain production and marketing to be held in conjunction with the World's Grain Exhibition in Regina next summer, may well "prove to be the most valuable and ultimately the most important part of this world event," stated H. S. Fry, Saskatchewan Wheat Pool publicity director, addressing the opening session of the annual convention of the Canadian Weekly Newspapers Association. He mentioned that a programme of the various conference sessions is being prepared under the chairmanship of Dr. J. H. Grisdale, Deputy Minister of Agriculture at Ottawa.

Professor Makes Hot Ice
"Hot ice" is the product of an amazing scientific experiment recently made by Prof. P. W. Bridgman of Harvard University. With a machine that exerts a pressure of 600,000 pounds to the square inch, Prof. Bridgman makes "ice" that is as hot as a cup of steaming coffee, and boils eggs by compressing them. In Prof. Bridgman's machine hardened steel flows like putty.

"Ah, now I have again forgotten what it was I remembered that I had forgotten."—Kasper, Stockholm.

BRITISH FLEET VISITS GERMAN HARBOUR

For the first time since the Great War the British Fleet paid a visit to Kiel Harbour, Germany, and was enthusiastically received. The main picture shows the new British cruiser "Norfolk," nearest camera, at right, at her moorings with the German ships, "Königsberg" and "Karlsruhe" on the left. Inset shows the hoisting of the British Ensign on the "Schleswig Holstein" by German sailors in honour of the British Fleet's visit.

WORLD HAPPENINGS BRIEFLY TOLD

The mineral output in South Africa in a recent month was valued at nearly \$20,500,000.

There were 26 concentrated milk plants in operation in Canada in 1930, whose value of output totalled \$13,604,743.

British Columbia lumber circles are organizing to take immediate advantage of market extension possibilities thrown open by the new Canadian-Australian trade treaty.

A periscope, designed to fit a man's hat, enabling him to see a bandit, should one sneak up behind him, will be shown at the international patent exposition in Chicago.

A small bear, an owl, and 20 quails formed part of the cargo of an air freighter that arrived at Croydon, England, from Paris, France.

An exceptionally fine copy of the first edition of the works of Chaucer, the poet, printed in 1532, was sold for \$11,250 at an auction sale recently. Despite keen bidding from United States dealers the prize was secured by a London dealer.

The gold medal and diploma for creamery butter, in the largest exhibit of its kind ever shown at the Saskatoon Exhibition, went to Manitoba Co-Operative Dairies, Winnipeg, with a score of 193.8.

Two Japanese dailies in Dairen, South Manchuria, the Manshu Nippo and Dairen Shinbun, have started to issue Sunday evening papers in addition to their regular morning and evening papers every day.

It is not at present possible to tell when a policy regarding a proposed Peace River outlet will be enunciated. Hon. R. J. Manion, Minister of Railways and Canals, said in the House of Commons.

Miss Mills Oppen, who was awarded \$25,000 in a suit against a movie theatre, which remained open on Sunday in violation of a blue law, more than a century old, renounced the award and said she never had intended to collect it, but sued only as a test case.

A Strange Craft

Dipper Dredger Built On Tyne Has No Propelling Machinery

The strangest craft ever built on the Tyne, a dipper dredger named the Cyclops, left the river recently for the Havre (France) port authorities. The Cyclops has no propelling machinery, but her remarkable plant enables her to raise herself in the water by means of four "legs," each 70 feet long. These "legs," which can be operated rapidly, jab into the river or seabed. The dipper can take into solid rock and scoop up 10 tons of material at a time.

Destroying Arabic Alphabet

Determination is shown by the government of Turkey to stamp out the Arabic alphabet. A special government commission made the rounds of Turkish departments at Angora and burned all books and papers in the taboo characters except a few historical documents.

Canada's Wool Clip

Canada's total wool clip is about 21,000,000 pounds annually, while Canadian mills use at least twice as much as this every year and Canadian consumption of manufactured wools equals about four times the clip.

"I hear you have a brother, doctor."

"Yes, and he is the exact opposite of me in every way."

"How nice. I should much like to make his acquaintance?" — Der Gemutliche Sachse, Leipzig.

SUNDAY SCHOOL LESSON

AUGUST 2

PHILIP'S MISSIONARY LABORS

Golden Text: "They therefore that were scattered abroad went about preaching the word."—Acts 8:4.
Lesson: Acts 8:5-40.
Devotional Reading: Matthew 13:36-9.

Explanations and Comments

Reading and Explaining God's Word, verses 22-35.—As we saw last week the persecution of Christ's followers after the Martyrdom of Stephen forced them to flee from Jerusalem, and they went everywhere preaching the word. Philip, like Stephen, was one of the seven deacons who, early in the history of the Church had been selected to help in the work, went to Samaria, where he was very successful in gaining converts to Christ. In the midst of his labors there he was suddenly directed to leave that field and go southward on the road that led from Jerusalem to Gaza. Our text says that an angel of the Lord gave him his commission, but this does not tell us who was the chosen messenger. "A vision, a dream, a human agent, some natural circumstances or instrument, all these are in Holy Scripture or in contemporary literature styled God's angels or messengers. Men saw them more deeply than we do, recognized the hand of a Superintending Providence where we behold only secondary agents, and in their filial confidence spoke of angels where we should only recognize some natural power."

Philip obeyed the divine commission, and met a man of great authority, the treasurer of Candace, queen of Ethiopia, who was returning from Jerusalem where he had been to worship. "Candace" was not a proper name, but like "Pharaoh" in Egypt, or "Caesar" in Rome, was the title of the ruler. Tradition gives this man of the name of "Indicus," and "Ireneus" and "Eusebius" make him the founder of Christianity in Arabia Felix and Ethiopia. Since he had been worshipping in the temple at Jerusalem he was probably a proselyte, a heathen converted to Judaism. When Philip saw him he was sitting in his chariot and reading the prophet Isaiah. "The man was reading daybreak and tilting his book at every angle to catch the beams of the rising sun, so that African adjusted his soul to every ray of truth that he could intercept."

The man was reading aloud, as was the way with Orientals. Jewish rabbis taught that what was read aloud should be remembered, and they often insisted upon this practice. Philip felt impelled to approach the chariot.

"Understand thou what thou readest?" at once Philip questioned. "How can I, except some one shall guide me?" the treasurer returned, and at once invited Philip to enter his chariot and sit with him.

The passage which the treasurer was reading was Isaiah 53:7, 8. "Of whom speaketh the prophet thou?" he asked.

And Philip opened his mouth—this is a Hebrew expression indicating that the words uttered were not spoken by chance but with deliberate purpose—and beginning from this scripture, preached unto him Jesus. Doubtless he told the treasurer how Jesus had fulfilled the prophetic how by His death He had provided a way of salvation for all who accepted Him.

Accepting God's Word, verses 36-40.—"Faith within and water without were ready," as Bengel says, and the Ethiopian asked to be baptized when they reached a pool. Philip gladly baptized him, though a Gentile and a Negro, and then was led by divine prompting to leave him and go to Azotus and then on to Caesarea.

Accepting God's Word, verses 36-40.

"Faith within and water without were ready," as Bengel says, and the Ethiopian asked to be baptized when they reached a pool. Philip gladly baptized him, though a Gentile and a Negro, and then was led by divine prompting to leave him and go to Azotus and then on to Caesarea.

Accepting God's Word, verses 36-40.

"Faith within and water without were ready," as Bengel says, and the Ethiopian asked to be baptized when they reached a pool. Philip gladly baptized him, though a Gentile and a Negro, and then was led by divine prompting to leave him and go to Azotus and then on to Caesarea.

Order Of St. John Of Jerusalem

Service Held In Westminster Abbey To Commemorate Centenary Of Revival Of Order

The Duke of Connaught, Grand Prior of the Order, the Duke and Duchess of York, and other members of the Royal Family were present at a service held in Westminster Abbey to commemorate the revival in Great Britain 100 years ago of the work of the Order of the Hospital of St. John of Jerusalem. The centenary address, delivered by the Archbishop of Canterbury, Prelate of the Order, was broadcast throughout the world.

The congregation included members of all grades of the Order, and the numerous uniforms added colour to an imposing scene. The band of the Grenadier Guards played before the service began. The men of the Ambulance Divisions of the Order were seated in the South Transept; the women of the Nursing Divisions marched in procession to the same part of the Abbey from the West Door, led by the Duchess of York, their commandant-in-chief, who then took her place in the Sanctuary. There she was joined some minutes later by the Duke of York, in the uniform of the Royal Air Force, Princess Louise, Princess Beatrice, Prince and Princess Arthur of Connaught, Princess Alice, Countess of Athlone, Princess Helena, Victoria, and Princess Marie Louise.

At the conclusion of the service the Grand Prior and Chapter General, who were seated in the cloisters by a guard of honour of the Westminster School O.T.C., went to the Great Hall of Westminster Abbey, which had been lent to the Order for the occasion, and there presided over the annual General Assembly of the Order. The Sub-Prior read messages of congratulation from the Commander in South Africa and the branches of the Order in Australia and New Zealand, and an address was presented to the Grand Prior from the branch of the Order in Canada. There was also a message from the Commandery of the Order in Sweden.

The Sub-Prior then read a message from Mr. Bennett, the Prime Minister of Canada, announcing that, in view of the good work done by the Order, the Canadian Government had decided to exempt it specially from the scope of the resolution of the Canadian House of Commons, in conformity with which the King has refrained from bestowing any titles or honours upon his Canadian subjects. In consequence of this communication, his Majesty had been pleased to invest several Canadians with the insignia of various grades in the Order recently at Buckingham Palace.—London Times, England.

Recipes For This Week

(By Betty Barclay)

A VERY GOOD STEW

(Serves 8)

- 2 pounds sirloin steak.
- 2 large onions.
- 2 tablespoons fat.
- 4 medium potatoes.
- 4 large carrots.
- 1 can peas.
- 1 tablespoon lemon juice.
- 4 cups water.

Salt and pepper to taste.

Put the fat in large stew pan. Heat until melted. Add the onions finely chopped. Stir put in the meat cut in small pieces. Simmer until a light brown. Add the four cups of water and let cook slowly until meat is tender—about 1½ hours. Dice carrots and potatoes. Add to the above and cook 20 minutes longer. When ready to serve add the peas and lemon juice and heat. Thicken with a little flour and water.

CHRYSANTHEMUM SALAD

(Serves 6)

- 6 small oranges.
- Lettuce.
- Apples.

Cut through the skin of oranges three-quarters of the way down and in very fine strips, being careful not to break strips apart. Remove orange pulp and cut in pieces. Place each orange skin in a bed of lettuce leaves and fill center with orange pieces and long slender pieces of apple. Serve with any desired dressing.

Ask Federal Aid

Want Assistance In Carrying Out Public Works In Saskatoon

Federal assistance in carrying out a public works programme in excess of \$2,000,000 will be asked by Saskatoon as an unemployment relief measure to meet requirements here for the next twelve months, Mayor John W. Hair has stated.

A payroll of \$70,000 per month for about a year would be assured if the suggested request is acceded to by the federal authorities. This would be sufficient, the mayor believes, to provide employment for all jobless men in Saskatoon. No plans are being made for single unemployed, the contention being expressed by the mayor that their problem was a purely federal matter.

World's Grain Exhibition

All the Canadian provinces will be represented by provincial exhibits in the new building of the World's Grain Exhibition and Conference at Regina in 1932. These will total a space of 11,000 square feet.

Hospital Opened At Chesterfield Inlet

Will Serve Nomadic Eskimo and Trappers In Far North

Bishop Turquetil and four nurses, members of the Grey Nuns Sisterhood, arrived at Churchill completing a long journey from Quebec by Canadian National Railways. The party was en route to Chesterfield Inlet, 500 miles north of this Hudson Bay port, where the farthest north hospital on the continent opened last week. The veteran Roman Catholic churchman, known throughout the continent as the "Bishop of the Arctic," left with the nuns in his 25-foot motor boat on the hazardous trip along the rocky west coast of Hudson Bay.

With the opening of the hospital His Lordship sees the realization of a dream he has had for nearly two decades in the barren country of northern Canada. The hospital will serve the nomadic Eskimos and the dozens of trappers that search for fur on the northern fringe of civilization. Educational courses in hygiene are planned for the younger generations of Eskimos.

Interesting War Relics

Regina Man Has Complete Set Of German Plagues

Interesting, if grim, relics of the passions and hatreds stirred by the Great War, are brought to light by J. H. Halla, of Regina, into whose possession has come a complete set of reproductions of the plaques struck by the Government of Germany commemorating various outstanding events during the dark days of 1914-1918.

The plaques were distributed to the citizenry and soldiery of Germany with the object of bolstering morale and stirring up hate, chiefly against England. They depict, among other things, the sinking of the Lusitania, Lord Northcliffe as a disseminator of lies, the triumphant German soldier conquering a figure symbolic of the Allies. All the plaques have considerable artistic merit.

Without a Country

"I am a woman without a country," declared a delegate at the Women's Co-Operative Guild Congress at Cheltenham, England, in an appeal to the government to allow a woman to retain her nationality after marriage. She was married to a Swede, who died three years ago. Through long residence in England her husband had lost his own citizenship, and by her marriage to him she now had no nationality at all.

Some butterflies have a strong perfume.

Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

WINDOLITE

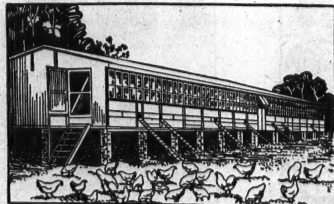

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but

allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

CUT DOWN
YOUR LOSSES
BY INSTALLING
WINDOLITE

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

61 Wellington St. W. TORONTO, ONT.

GRAIN CARGO IS ARRANGED FOR BAY ROUTE TEST

Winnipeg, Man.—Brig.-Gen. R. W. Paterson, president of the On-to-the-Bay Association, wired Hon. R. J. Manion, Minister of Railways and Canada, that 750,000 bushels of wheat is stored in Saskatoon, "definitely earmarked to go out through Churchill this fall" and that a Norwegian firm was ready to supply ships for carrying the first cargoes of grain by the Hudson Bay route.

The message followed a meeting here of the On-to-the-Bay Association executive, which discussed Dr. Manion's announcement that the Dominion Government will not accept responsibility for making trial shipments this fall from Churchill. The executive interpreted the Ottawa minister's statement as meaning the Government feared sufficient grain for the test shipments would not be available.

"Noting your statement that you had been unable to secure wheat for the purpose of the test," Gen. Paterson's message read, "I, personally, succeeded in having 150,000 bushels, at present stored in Saskatoon, definitely earmarked to go through Churchill this fall, provided that cargo space is available, and it would seem that a little effort on your part would result in your being able to obtain a great many times this amount."

"With reference to cargo space we have already put in touch with your department a Norwegian firm of shipping brokers, Joachim Greig & Co., Bergen, who are most anxious to send ships to Churchill this year."

"If there are no government ships or Canadian lines who are anxious to have the honour of being the first to carry wheat from this port, I would suggest that these people be communicated with and advised that it will cost them no more, taking into consideration marine insurance, dock and harbor charges, than it would do to take the same cargo from Montreal, which, I understand, is your latest proposal, and I think you will have no difficulty in adjusting the situation."

Representatives of a Vancouver shipping firm called this week and are now on their way to Ottawa to interview with reference to inward cargo rates. Possibly you can make this fit in such a way as to greatly facilitate the object we are trying to attain."

Accepting the challenge of the Federal Government, Saskatchewan will supply the entire shipment of 750,000 bushels of wheat for the first official test of the new Hudson Bay route. The senior wheat producing province of the Dominion has the grain and places the responsibility of providing the boats on the Federal Government.

These arrangements have been completed by Hon. J. A. Merkle, Minister of Railways, Labor and Industries, who said that he had received positive assurance of the amount of grain needed for the test shipment.

Private Depositor Will Draw Regular Interest

Only Current Commercial Accounts Affected By Decrease

Ottawa, Ont.—Private depositors will not be affected by the reduction of one-half per cent. in the interest rate on current accounts as announced by Canadian banks, according to local banking officials. The reduction from two per cent. to 1½ per cent. goes into effect August 1, and is strictly on current commercial accounts. Private depositors will continue to draw three per cent. interest as usual, it was said.

Increase In Tourist Business

Ottawa, Ont.—The widely-held belief that tourists are not touring in these days of "tight money" has been discredited so far as Ottawa is concerned. Civic figures just released show 1,938 persons have registered at the Lakeshore Park tourist camp so far this summer, an increase of 50 per cent. over the same period last year.

W. N. U. 1900

Saskatchewan Relief

Hon. Howard McConnell Says Hundred Thousand Residents Will Require Aid

Montreal, Que.—About 100,000 residents of Saskatchewan will have to be fed by the Provincial and Federal Governments during the coming winter. Livestock to the number of 150,000 head will have to be taken from drouth areas to spots where the feed is more plentiful. Yet Saskatchewan will recover its lost wealth, according to Hon. Howard McConnell, K.C., provincial treasurer and minister of municipal affairs, who was in Montreal to consult with officers of the Royal Bank of Canada in connection with the financial situation of the western province.

Out of the 302 townships in Saskatchewan, 75 will require Federal and Provincial relief during the coming winter, according to Mr. McConnell.

"The drouth has been so bad," he said, "that even potatoes have not grown in some sections of the province. That is why we will have to feed so many people through the winter. It is without a doubt the most severe rainless spell that the west has had since the beginning of the century."

"People here in the east," he continued, "are inclined to reproach us sometimes, because we are now in distress. But you must remember that we now have had three years of bad crops and very low prices. Actually we have not had a good rain in Saskatchewan since July, 1929."

But the present condition in Saskatchewan is only temporary, according to Mr. McConnell. Low crop yields in wheat producing countries, smaller acreages seeded, winter absorb the wheat surplus, then prices will rise once more and Saskatchewan will be well off.

Building Road In North

Will Open Up Route From Flin Flin

Regina, Sask.—Construction on the new government road from Turnberry to Hudson Bay Junction, opening up the route from Flin Flin, Manitoba, is proceeding in good shape, according to Hon. J. A. Merkle, Minister of Railways, Labor and Industries, who said that it is expected the earth grading will be completed by the coming fall.

At Turnberry the Manitoba department meets the Saskatchewan road and proceeds north to The Pas and Flin Flin.

All this construction is being undertaken by relief work.

Making Railway Cut-Off

Ottawa, Ont.—Although a report has been received on the project of making railway cut-off in Manitoba, the Department of Railways and Canada has not completed a study of it. This information was given in the House of Commons by Hon. R. J. Manion, the minister, to A. L. Beaulieu, Liberal, Provencer.

Broadcast From Great Height

Friedrichshafen, Germany.—The first radio broadcast from the stratosphere was heard last week when a diminutive balloon, with automatic registration instruments and vest pocket radio sending apparatus attached, told members of the Graf Zeppelin crew it had reached an altitude of 50,000 feet.

PRESIDENT-ELECT

Carleton W. Stanley, President-elect of the famous Dalhousie University in Nova Scotia.

Trans-Canada Flight

Non-Stop Flight From Halifax To Vancouver In August

Vancouver, B.C.—The first non-stop flight from Halifax to Vancouver will take place during the Canada Pacific exhibition from August 22 to 29 here. It is announced by J. K. Matheson, general manager of the Vancouver Exhibition Association, who has been in communication with sponsors of the flight.

The flight was originally planned to take place during the airport celebrations, but now it is likely to be tied up with the exhibition. J. Williams, agent for the flyer in Montreal, has forwarded details for consideration by a well-known French war ace, who is at present in Canada, it is stated.

Proposal also has been made from the same source that a round-the-world flight in an attempt to break the Gatty-Post record be made, starting from Vancouver on the opening date of 1932 exhibition, and being completed here before the close, seven days later. This matter will also be considered by directors.

Appointment Not Made

Post of Assistant Commissioner of R.C.M.P. Still Vacant

Ottawa, Ont.—Contrary to a recent report that Col. James W. Spalding, of Regina, had been appointed senior assistant commissioner of the Royal Canadian Mounted Police, Commissioner Cortlandt Starnes states Supt. Spalding will remain in the west.

No appointment to the post here has been made, although the retirement to pension of Lieut.-Col. G. W. Worsley, senior assistant commissioner, is announced.

Reduced To Lowest Limit

Paris, France.—French armaments have been reduced to the lowest possible point the government declared in a memorandum on disarmament issued in answer to the request of the League of Nations Council for information preliminary to the 1932 world disarmament conference at Geneva.

Shipping traffic at the port of Havre, France, has nearly doubled in the last ten years.

There are about 16,000 licensed airplane pilots in the United States.

Reviews Present

Government Activities

Premier Anderson Says Next Saskatchewan Election Will Not Be Held Until 1934

Yorkton, Sask.—The next provincial election in Saskatchewan will not be held until 1934. This was one of the announcements made both by Premier Dr. J. T. M. Anderson and Hon. A. C. Stewart, Minister of Highways, when addressing 5,000 people here.

Mr. Stewart reviewed some of the activities of the government, and the premier outlined the policy of the government with respect to future activities. He stressed the problem of relief, citing that everything that is humanly possible was being done to meet the situation, which he admitted is a serious one.

Premier Anderson referred to the loyalty of the members of the government, and also all the supporters in the legislature, citing some of the criticisms levelled at him and his government, and then explained what efforts had been made to meet the situation in the past and what the government intended to do in the future.

Among the matters the premier discussed were, carrying out of pre-election promises, the reorganization of the education department to include lessons for rural pupils in the higher grades over the radio; restoration of natural resources, and the consequent employment to the province; land settlement policy and loans to help settlers; provincial parks system; encouragement of prospectors to develop the north country mining territory; the public debt; financial arrangements with the banks for the wheat pool; relief in the dry areas, and for urban centres; the calling of an economic conference this fall for debt settlement between debtors and creditors; and the 21 demands of the United Farmers of Canada, Saskatchewan section.

Must Pay Taxes

Tax Collectors In Germany Will Fly No Favours

Berlin, Germany.—Germany's tax collectors are working on orders to get what is coming to the government and pay no attention to the excuses of taxpayers in arrears. A decree established heavy penalties for citizens who have made faulty declarations.

Without waiting for the outcome of the conference of nations at London, England, the Reichsbank has begun issuing almost \$250,000,000 in silver money under the recently-decreed change in the currency law.

Prevention Of Crime

Rochester, N.Y.—The crime experts of the International Association of Identification, gathered here, had ringing in their ears the advice of Police Commissioner Edward P. Mulrooney, of New York City, that the police should pay more attention to preventing crime among the youth of the land.

Declare Moratorium

Topeka, Kans.—Many Kansas counties have declared a moratorium on taxes in an effort to assist farmers of the country's chief wheat-producing state who are offered the lowest prices in history in a year which brought their largest crop.

PUBLIC HEARING IN BEAUHARNOIS PROBE IS ENDED

Ottawa, Ont.—Climaxing the final public hearing of the Beauharnois committee, R. O. Sweeney, head of the colossal power scheme, assumed full responsibility for every dollar of campaign fund with which the Beauharnois name has been connected. The contributions were on his responsibility and he, personally, assumed the whole liability. The sums paid out by the Beauharnois Company, said Mr. Sweeney, represented loans to him and already had been repaid in part.

Parliamentary circles were agog with conflicting rumors relating to the report of the committee. A conference will be held with the government of Quebec, it was stated, arising out of the fact that that company secured its power rights through a charter granted by the legislature of that province.

For the past two weeks the sittings of the committee have stolen the spotlight from the House of Commons. The evidence has been prolific with features, not the least of which was that campaign funds totalling in excess of \$50,000, had been distributed by Mr. Sweeney among the Liberal and Cooperative Federal and Provincial Parties.

The cost of the Beauharnois project to date has been \$29,768,818, stated A. F. King, committee auditor. In an exhaustive analysis of the balance sheet of the company, Mr. King said it would be fair to assume that slightly over \$7,000,000 had been "watered." When questioned later on this point by G. H. Montgomery, K.C., chief Beauharnois counsel, Mr. King admitted he had not taken into consideration any value that might be attached to the company's charter from Quebec, or the approval of its plans by the Dominion.

When referring to campaign funds contributions, Mr. Sweeney said there had been "tax approval" by the board of directors to their payment. He explained the money had been paid by Beauharnois to a company owned entirely by him. He was responsible for the repayment of the sums, and already had paid back a considerable proportion.

Premiers Confer At Winnipeg

Discuss Plans For Relieving the Western Wheat Crisis

Winnipeg, Man.—Prairie government representatives were in conference here discussing measures that will aid in relieving the wheat crisis. Premier J. E. Brownlee, of Alberta, was present and joined Premier John Bracken, of Manitoba, and Hon. Jas. F. Bryant, K.C., Saskatchewan Minister of Public Works, in conferring with wheat pool heads regarding handling and financing of this year's crop.

Establishment of an interprovincial trading corporation and reorganization of the wheat pool, permitting marketing of the 1931 crop according to a formula laid down by Premier R. B. Bennett, was said to have held the attention of the conference. It was learned a great deal of work was accomplished towards launching the organization.

Pledge Support To Soviets

Resolution Adopted By Ukrainian Farmers In Session At Winnipeg

Winnipeg, Man.—Final session of the Ukrainian Labor-Farmer Temple Association here was taken up with the adoption of resolutions covering varied subjects.

The convention voted support for a campaign to prevent deportation of workers and "vagrancy" proceedings against unemployed men; pledged support of the Russian Soviet and urged the organization of workers and farmers into associations to defend their political and economic interests.

Crop Outlook Improved

Washington.—The United States Commerce Department reports an improved crop outlook in western Canada, good crop conditions in Australia with a good wool crop in view and a slight improvement in economic conditions in the Far East.

This picture shows two women competitors taking part in the Bisley Shooting Meet in England, and proves conclusively that a rifle is more dangerous in some women's hand than is a rolling pin. The fair competitors are Miss E. Babcock (left) and Miss M. Foster (right), the latter being the winner of last year's King's Prize. To win this most coveted trophy in the rifle world, Miss Foster had to shoot her way to victory over 1,000 experts from all parts of the British Empire.

Stony Plain and District

Mrs E H Pruner and family of Edson is at present visiting with Mr and Mrs Geo. Liebert.

Mr Morrison, the gent who had charge for the past two weeks of the local station in daytime, left on Monday for Rochfort Bridge.

Mr A E Michael returned to town on Tuesday, from a motor trip to Halkirk.

A delegation of local sports attended the celebration at Onoway last Friday.

Mr and Mrs Val Mohr of Mundare were week end visitors in this district.

Bill Hanke, Westlock, was a business visitor in Stony on Tuesday.

M M Mecklenburg the Optician and eye specialist, will be in Stony Plain Monday, Aug. 3d. See him, and see good.

J. F. CLARKE,
Stony Plain.

Stony Plain and District

Mr and Mrs Jac Becker are spending a vacation with friends at Scotford.

Mr and Mrs Sam Weinberg of Camrose were Sunday visitors here.

Messrs W Comisarow and J Christie are spending a week at their summer cottage at Edmonton Beach.

Mr Philip Alt, principal of Clairmont school, arrived in Edmonton yesterday, from the North.

Stony's Boys and Girls has ketchball teams left Wednesday afternoon for Ledue, to play return games at that town's sports day.

The ball game at Glory Hills on Sunday between the Hillers and Stony Bears resulted in a win for the Hillers by 13 runs to 10. Bears' battery: Art Davis & Eddie Mayer.

Miss A Wincoff left Tues. for her home in Vancouver, after spending a few weeks here, visiting with Mrs M Comisarow.

While the electric storm which visited Stony Thursday last was at its height a flash came over the wires at the local station, blowing out the fuses on the electric light system and forcing open the panel on the telegraph switch board.

Messrs Ulmer and Pailer have been awarded the contract to paint the local public school.

On Sunday next, August 2, Rev G A Sauder will exchange pulpits with Rev S Langille of Calder.

The name of Mr Raleigh B Brooks, of the Sun Life Assurance Co., has been added to the rolls of the Chartered Life Underwriters of Canada. Mr Brooks received this appointment as a result of examinations held last April.

Barth's Orchestra will play tomorrow at the big barn dance at the Couates farm south of Duffield.

Mrs Zuetz of Comet district was taken in to an Edmonton hospital on Thursday, suffering from a broken arm. Their automobile had been left standing in gear, and children playing in the car had started the engine. Mrs Zuetz tried to stop the car from running away, and had had too arm broken in the effort.

The Pizler motor party returned to Stony Tuesday afternoon, after a circuit round the province, which included a visit to Cold Lake, where fishing was indulged in. They brought home a few samples of trout; and the Editor has reason to believe there ain't nuthin' nicer'n the change from a wuerst diet to a nice fried cutlet from a Cold Lake special.

Mr Gus Barth, A.T.C.M., will resume his classes in music on Aug. 1. See him now, for further information.

The regular Wednesday half holiday in the Town of Stony Plain has commenced, and will continue thru June, July and August, when all places of business close at one p.m.

JOE D. MILLER, Manager

Yes, How About It?

An exchange says: We note that the 1931 initial payment on Pool wheat is to be 30c, basis No. 1 Vancouver, which will amount to about 12c per bu. at point of shipment. On No. 3, tough, and low grades there will practically be no payment at all. The question now arises as to who is going to finance twine, harvest help and threshing for the Pool farmer. It seems that the latter will need relief quite as much as the drouth sufferers

Spruce Grove News.

Spruce Grove Councillors will hold their regular meeting on Monday next, Aug. 3. The Councillors will sit as a court of revision; this session being held probably before the regular meeting. There is likely to be considerable discussion when the matter of the assessment on improvements adjoining the City come up.

Mr W McLeod, who has been visiting at his old home in the Maritime provinces, is expected back at the Grove at the week end.

The farmers of this district were very fortunate during the heavy hail storm Thursday last, this district escaping with light loss compared with other places.

Mr Brox has abandoned his proposed trip to Peace River district for this season.

The Duke's crowing hen is now suffering from a slight throat trouble, and as a consequence has curtailed her output to three crows at 6.15 a.m. This has reduced her value for exhibition purposes, as no inducement can get her to chortle after breakfast-time.

Results on Sports Day.

WHY SUFFER FROM HEADACHES,

Pain in and around the Eyes?

The right glasses fitted to your eyes will surely relieve you and give you comfort.

Glasses furnished Free.

Fifteen dollars examination fee.

That is far cheaper than paying \$8 to \$10 for an examination and then glasses at \$12 to \$15; but you cannot see the logic of this; you need more than glasses.

Let this Company Handle Your Grain

World's Grain Exhibition and Conference

Farmers Will Win \$210,750⁰⁰ in Prizes

The World's Grain Exhibition and Conference offers Canadian farmers an opportunity to share in cash prizes amounting to \$210,750.00. Competed in 50 competitive classes, open to the whole world, are 1,701 cash prizes. A few of the major awards follow:

\$2,500 a first prize for 50 pounds of wheat, 30 pounds of oats.
\$1,500 for 40 pounds of barley, 50 pounds of rye.
\$ 800 for 10 ears of corn.
\$ 300 for 30 pounds of peas, 30 pounds of flax, 20 pounds of clover.

With this splendid opportunity before them, Canadian farmers should keep a watchful eye on their growing crops. They should mark for special care those areas that appear most promising.

It should be understood that all seed and grain samples, if they are not already selected, will have to be found in crops of this year. All exhibits must be received by the Exhibition authorities on or before March 1, 1932.

Of vital importance to the advancement of Canadian agriculture will be the winning of World Championships in 1932 by farmers of Canada. Their seed and grain exhibits must demonstrate to the world the quality of Canada's field crops.

Select the classes from the prize list most suited to the crop you grow, then select your samples from the best you have.

It is best to make your entry NOW.

Your sample for exhibit must be in the hands of the Secretary at Regina on or before March 1, 1932.

Valuable information relating to the preparation of grain and seed for exhibit may be secured by writing to the Secretary of the Provincial Committee, World's Grain Exhibition and Conference, care Department of Agriculture, your own province.

Show what you grow and share what you know

On application, the Secretary, World's Grain Exhibition and Conference, Imperial Bank Chambers, Regina, will send you prize lists, rules and regulations governing competitive entries and all other information.

CHAPTER XXIV—Continued.

"I'd be proud to be thought in the same class," retorted Nick. "He's a real man. And we'd be suffering now if he hadn't known that most of these islands have no running streams. He saved every drop of water aboard the 'Sea Bird'; but if we're not picked up in another week someone has got to go—or die a wretched death."

"But those small boats—how long would they live if another hurricane came up?"

"Five minutes, perhaps; but what else is there to do now that the yacht has gone to pieces on the bar? Myer could send the men, of course, but I'd rather do something—yet you object if I even build a fire! Do you want to spend the rest of your life here?"

"I hate it! And you're not even decently polite."

Her childishness made Nick grin, and restored his good humor.

"I wonder," he said, "if Robinson Crusoe was a Chesterfield! I'm sorry if my manners offend you, Angela, but I'll admit that I feel on edge today and want to get off by myself. I can't get Gay out of my thoughts, and how she must be suffering. Perhaps the 'Sea Bird' wasn't mentioned in the papers; but it's long past the time when I should have been back, and it makes me crazy—it makes me wild—to think—"

He broke off suddenly, and strode away. Angela started after him, then stopped, and looked down at her clean white shoes. For no toilet requisite—nothing that could add to her personal adornment, even shoe polish, had been left behind when the 'Sea Bird' was abandoned. Angela preferred hunger and thirst to looking unattractive. She gazed with scorn at Nick's collarless neck; at the Colonel's soiled Palm Beach suit. She rebelled at the thought that in another month her own clothes would begin to appear grimy. Now, although she really longed for a tramp with Nick, she could not endure the thought of soiling her dainties; and he was evidently in no mood to wait while she changed to something suitable.

Angela sank down on a seat that the despatch captain had cleverly con-

structed from a barrel, and gazed gloomily out to sea. It was a scene of enchanting loveliness, but she looked upon it with blind eyes. She was thinking of Nick, angrily, and with a sense of helplessness. She admitted that she had never worked so hard to gain a conquest—yet she had evidently failed. She felt baffled—humiliated—enraged, and with it miserably unhappy. It made her furious that a quiet little woman like Gay Hastings could hold a man captive—her own husband, too, whom she hadn't seen for weeks! Who was she anyway, to have married a man like Nick who had such wonderful possibilities? What a glorious love he would make! He was better looking than any man Angela knew. He was handsome even without a collar, and how many men could stand that test? Take him away from provincial Bakersville—that stupid bank, and his stupider wife and babies, and he would go far—get anywhere. But to see him wasting himself providing for a family that grew with indecent rapidity—

Angela's lip curled in disgust. Jim had implied that she could not succeed. Her face grew hard. She would succeed! She would win! Nick Hastings if he only to show Jim Halliday that she hadn't lost her charm. After all, a desert island was not a bad setting. Her prey could not escape; give her a month more. . . . She never failed . . . and perhaps . . .

Angela smiled, but her face was not beautiful, nor her eyes innocent, as she looked out to sea.

As for Nick, he tramped on desperately, his mind filled with thoughts that he knew were futile. He had done what at the time had seemed the sensible thing to do, yet he was torn with the thought that he should have gone home at the completion of his business. The old nervousness that had been his before leaving Bakersville, was back upon him. People irritated him, especially Angela. He wished she would transfer her attentions to the Colonel, who would doubtless appreciate them. "It might keep him from talking so persistently about treachery of Maine, a subject, which, for some mysterious reason, always put Angela on edge."

Nick wondered, as he tramped along, if her distaste for the subject had anything to do with that horrible story which the Colonel had recounted the night before the hurricane—the night Angela had kissed him. He had hardly thought of it since. There had been too much else to think about; yet the whole thing was queer; her behaviour after the story—the midnight confidence she had forced upon him, and the kiss—mostly the kiss. It struck him for the first time that Angela was subtle, and he hated subtle people. What was it Gay had once said about not trusting Angela Halliday?

Gay! As always, the thought of her came with the touch of a cool hand; then the realization of what she was suffering rushed back again, and he was hard with wept. Suddenly, realizing that he had walked too rapidly in the hot sun, he sought the shade of a tump of palms, and there he lay down, looking out, hopelessly across the blue-searching the horizon for the ship that did not come.

After a while his gaze crept back to the land, and what looked like a scrap of paper caught in the underbrush not far away. Who could have dropped it? He was a long way from camp, though a couple of days ago he had come here with Angela and Ang. Pure curiosity made him arise and grasp it. In the wilderness any object pertaining to civilization is of interest. It was evidently a sheet out of a letter to which there was no beginning, and no end. The writing was unfamiliar, but instantly he saw Gay's name and read:

"Gay Hastings' baby coming in September—first part, and Nick don't know a thing about it. She wouldn't tell because he wasn't feeling well and she thought if he knew he'd think he couldn't leave her. She doesn't look real smart, and I got a notion that Bennett's worried. I asked him plump out, but he didn't say much. That's the way he is—always sets his jaw and none of my business. Anyway I hope Nick'll get back soon. She nearly died last time, and those boys are getting a handfull though old Mr. Bartlett helps her a lot. Thought you'd like to know we was all well—Little Martha."

In a flash Nick understood. This was a letter to Angela Julie Nipps, who had a passion for writing letters. It was a letter to Angela. Julie disliked Angela, but she would write to Satan himself if she thought he would reply. She watched for the postman as a cat watches a mouse. Gay, out of pure

sympathy, was always sending her picture postcards when they were away.

Nick sat down hastily. What did this mean, anyway? He read again, aloud this time. "Gay Hastings' baby is coming in September." In his surprise he thought: "It's a lie; but why should Julie invent a yarn like that?" Then he saw light. Why, it was true! Of course it was true! That was exactly what Gay would have done if she thought that he needed rest, and freedom from anxiety. What a dunce he had been not to have guessed! A host of memories crowded back upon him by which he might have known had he not been absorbed in his own worries. And the things he had said about expenses—about contracting doctors' bills—about their keeping well for the next year. . . . Of course she wouldn't tell him till she had to. And now—what was she thinking—what was she suffering—alone—facing what she had gone through for little Nick—thinking—perhaps, that he was never coming back to her. . . .

Nick turned, burying his face in his arms, longing for the relief of tears that would not stir. Then came a thought that filled him with blazing anger. Angela had known! She had reached them since leaving Kingston. She had had this letter all the time, and had let him start out upon this knowing that his place was at home. How could she? Did she no sympathy for Gay—no understanding of her need of him? Even though Angela had never had a child, she should have known instinctively that, had he understood—No! He should have known that she would never allow anything would have tempted him.

September—the first of September, and it was now July. It might be months before they were picked up. He arose shakily, filled with an insane desire to put his hands on Angela's slender throat—that lovely throat that made such lovely music—and choke her till she begged for mercy. He started toward camp, then stopped, appalled at his own anger. He sank down before he faced his friends. He must control himself before he talked with Angela.

He turned about, and began his patrol where he had left it off, walking rapidly, his thoughts in a wild chaos. He looked neither to right nor left. Beattles that should have stirred him he passed unnoticed. Suddenly he realized that he was breathless, and that he had reached the coast of Maine, where he had meant to pile brush for a signal fire. He paused, and looking out to sea, uttered an exclamation of incredulity. He shaded his eyes with his hand for a long moment; then turning with furious haste, began making a pile of leaves—of twigs—of branches—of anything that would burn, working like mad before he stopped to gaze once more across the water.

Paint, almost imperceptible, yet never there it had been before, a dim spiral of smoke was visible against the horizon.

(To Be Continued.)

Minnesota in the Lists

Preparing To Enter Exhibits At

World's Grain Show
Minnesota producers are getting ready to enter the lists against those of other countries in the competitive classes of the World's Grain Exhibition and Conference to be held at Regina in 1932. A campaign is now being conducted by the Minnesota Crop Improvement Association among its members with the purpose of encouraging them to prepare special plots so that they may thus secure high class samples to enter in the various classes.

Flaws in Steel Rails

Remarkable Instruments Detect Defects In Track While Moving At A Fair Speed

Looking into steel rails for invisible flaws, two remarkably equipped cars have been travelling over western lines of the two Canadian transcontinental railways during the past few weeks.

Moving at a fair speed over the rails these robot detectives mark the invisible faults that might cause a split rail, and forever damn the guilty rails in the eyes of section crews by automatically painting them white. Up in the car the needle of one of the instruments is tracing a continuous line on paper. When the rails are good the line is comparatively level. When a flaw is traversed the infallible needle bucks, or ducks, and falls the white splash of paint.

Invented by the late Mr. Sperry, these cars are leased to railways by the Sperry Rail Detector Company, of New York. Each carries its own chief operator and motorman. Over every section of track covered, the local section foreman follows with his gang, to make immediate replacements.

THE RHYMING OPTIMIST

By Aline Michaels
WIND FROM THE SEA

Tonight the wind is from the sea. And bears the tang of salt to me. Just here, the honeysuckle grows. And there the trellis with the rose. Stands close beside the garden gate To tempt the passer with its freight. Of wine-sweet, petalled loveliness. The daisies in their snowy dress. Along the pathways nod and bend As gracious women greet a friend. Yet when the wind is from the sea It brings strange messages to me; I feel, within, a sudden need Of stinging spray and drifting weed. Of sea-weed red as any rose Tossed lightly where the strong tide flows.

Ab! I would know the press and surge Of ocean in its restless urge! Tonight the wind is from the sea; What can the roses say to me?

Persian Balm is alluringly fragrant. Adds a charming refinement to the most finished appearance. Greatly and preserves complexion of surpassing loveliness and texture. Softens and whitens the hands. Cools and dispels all irritation caused by weather conditions. Swiftly absorbed by the tissues leaving never a vestige of stickiness. A peerless toilet requisite. Invaluable to all women who prize elegance and distinction.

Aeromobile May Be Speedy

Vehicle Driven By Air Propeller Invented In Germany.
Great speed at low cost is expected from the aeromobile, the machine recently invented by two German inventors. The vehicle is described by them as an automobile driven by an air propeller. The air screw lies horizontally on the back part of the chassis. Above it are several parallel "plane surfaces forming a sort of lattice-work arrangement, the angles of which may be altered. The air stream produced by the propeller breaks through these surfaces, providing the driving power.

"Mothers have a pretty bad time." "Why?" "Well, they're always afraid that some girls will marry their sons and that some men won't marry their daughters."

TO GREAT BRITAIN and back

SPECIAL REDUCED third class fare from Montreal to Belfast, Glasgow, Liverpool, Plymouth or London and back. Good going from Aug. 1st to Oct. 15th. Return portion valid for 2 years. Round trip rate to Continental points reduced proportionately. Two sailings a week.

Little Helps For This Week

"The Lord bless thee, and keep thee; the Lord make His face shine upon thee, and be gracious unto thee."—Numbers vi. 24, 25.

In having all things, and not Thee, what have I? Not having Thee, what have my labors got? Let me enjoy but Thee, what further crave I? And having Thee alone, what have I not? I wish nor sea, nor land; nor would I possess of heaven, heaven unpossessed of Thee. —Francis Quarles.

There is no holiness if the Lord withdraw His presence; no wisdom if His Spirit ceases to direct. In our own nature we are as unsettled as the sand upon the mountain; but in God we have the stability of the throne in heaven. Kindle, O Lord, our hearts with light and life by the holy fire of Thy love and blessing. —Thomas A. Kempis.

Miller's Worm Powders are a pleasant medicine for worm-infested children, and they will take it without objection. Worm infestations are followed it will not injure the most delicate child, as there is nothing of an irritating nature in its composition. They will speedily rid a child of worms and restore the health of the little sufferers whose vitality has become impaired by the attacks of these internal pests.

Dehydrated Apples

Stocks On Hand In The Okanagan Valley Now Practically Exhausted

Stocks of dehydrated apples in the Okanagan Valley have practically been exhausted. Only very small amounts are in the hands of packers. Since fresh apples have not been available there has been a good demand for the dehydrated product. Reports from the east are to the effect that only small quantities are now on hand, not over 2,000 boxes, all told, are in the hands of evaporators.

Took it Before Childbirth

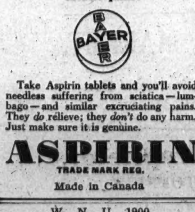

"I FIRST took Lydia E. Pinkham's Vegetable Compound before childbirth because I was so weak. After making it I felt much stronger. I could sleep better and I could do my work. I have taken the Vegetable Compound for eleven years off and on whenever I need a builder and I recommend it. Mrs. Emily Schieler, Renovo, Saskatchewan. This is only one of thousands of letters praising this simple, home remedy and recommending it to women who need a strengthener."

"I felt much stronger"

Post Office, Stony Plain.

Barth—Liebert.

A very pretty wedding took place at the home of the bride's parents, Mr and Mrs Geo Liebert, at 5 p.m. on Wed. July 22, when their eldest daughter, Dora Annis, was united in marriage to Gus Barth, son of Mr and Mrs Chris Barth, of this district. The Rev G A Sander officiated.

The bride was given away in marriage by her father, while Mr Hilding Larson played Mendelssohn's Wedding March.

The bride was charmingly dressed in a long, sleeveless gown of white silk crepe and long veil and carried a bouquet of roses and carnations.

Miss Mildred Liebert, sister to the bride, who acted as bridesmaid, was becomingly dressed in pale pink chiffon, and carried a bouquet of sweet peas. Mr Val J Kulak acted as groomsmen.

A delicious supper was served at 6 o'clock. Mr L Kowensky acted as toastmaster. The evening was enjoyably spent in music, outdoor games and humorous toasts.

Mr and Mrs Gus Barth were the recipients of many beautiful and useful gifts.

At midnight, after a big shower of rice and confetti, the happy couple left for Banff upon their return to their many friends, they will take up their residence in Stony Plain.

Gift to the Newly-weds.

Honoring Mr and Mrs Gus Barth, whose marriage took place on the 22d, members of the choir of the local United Church entertained on Friday evening at the home of Mr and Mrs R M Oatway. The young couple who for the past year have been members of the choir were made the recipients of a beautiful silver platter.

Relief in Rural Districts

Suggestions for handling relief in rural districts were submitted to provincial government when directors of the Alberta Municipal Districts Ass'n met Hon Geo Hoadley, acting premier, and Hon R G Reid, provincial treasurer, on Friday.

Subjects covered by the delegation dealt with means of keeping the schools open in all districts, medical aid and hospital treatment in rural areas, forms of handling agricultural and direct relief.

The delegation was headed by Pres. Gair, and included E Pinenbeck, H W Knight, W G McBeth, F H Holmes.

Edmonton Beach.

Mr Val Kulak, of the local Red & White, and his sister, Mrs John Plastiras and family of Edmonton, spent a week at the Wakher League cottage, at the Beach.

Visitors to the Beach Sunday, had the choice of witnessing two baseball games and a basketball contest, as the three games were in operation at the same time. The basketball game resulted in a 10-10 tie between the Edmonton Toddlers 18; Fraternal Order Eagles 11.

Bank Interest Rates.

Private depositors will not be affected by the reduction of one half per cent in the interest rates on current accounts, as announced by Canadian banks, according to the banking officials at Ottawa. The reduction from 2 to 1-1/2 p.c. goes into effect on Aug. 1 and is strictly on current commercial accounts. Private depositors will continue to draw three p.c. interest, as usual.

United Church Notes

On Sunday last the subject under discussion was "What would a Christian World be like?" Despite the rain and bad roads, the attendance was good at all points.

Next Sunday Rev Langille of Calder will be the preacher.

The congregation at Holborn is pleased to welcome Mrs Clarence Scott (nee McEachern) who is very active in church work and delighted the congregation with a solo last Sunday.

The music supplied by Mr S Everington and family, assisted by Mr Knox McKinnon, proved a great asset at Holborn.

On Sunday, August 9, the Stony Plain church will observe Flower Day. This will be a very special occasion.

Church Services.

Services in St. Philip's Church next Sunday, 11:30 a.m.

United Church service every Sunday Evg. at 7:30.

On Sunday, Aug. 16, English Lutheran services at St. Matthew Schoolhouse at 7:30 p.m., by Rev. H. Kuring.

There will be Gospel services every Sunday at 7:30 p.m. at Muir Lake Community hall. Special message for Aug. 2: "How I met my friend Jesus." Everybody welcomed. If you have visitors, bring them, then.

Shirtsleeves and Cones.

There is something attractive in sitting on the front seats in one's shirtsleeves and eating hot cream cones—Edmonton Journal.

Chance for the Oversized.

A ladies' wear shop is advertising a "big alteration sale." Here's a chance for ladies who need big alterations—Free Press.

Still Tender.

The female members of an animal club were assembled for the annual banquet. When the presiding officer (Mrs Giraffe) gave the signal to be seated, all complied except Mrs Ostreich who remained standing by her seat. The presiding officer noticed this and asked Mrs Ostreich why she was standing. Mrs Ostreich replied she was unable to sit down "because she had been hiding all the previous day from her husband and had become sunburnt."—Papyrus News.

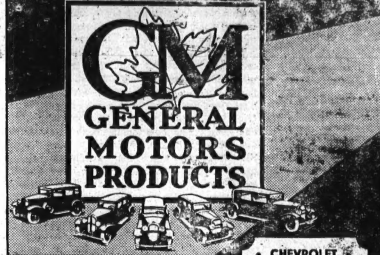

Pelko CAPS

—are made for those men and young men who appreciate the little touch of refinement in head dress.

The Pelko Cap is an all service cap made for golf, motoring and all outdoor activities, as well as street wear.

T. J. Hardwick, Agent
Stony Plain.

look to the value

BEFORE you invest in any motor car, consider carefully the advantages of obtaining a General Motors value. You know in advance that your car is specifically designed and constructed for Canadian climatic and road conditions. You can be confident that its Canadian materials and craftsmanship are of the finest. Gratifying, too, is the fact that wherever you may travel throughout North America, the comprehensive terms of the Owner Service Policy relieve your mind of possible service problems. To facilitate your purchase you can buy out of income on the GMAC, General Motors' economical, time-payment plan.

Look in the classified pages of your telephone book under "General Motors Cars" for address of the nearest dealer.
